

New Antiviral Series Now Available at Kohl's Pharmacy

Midtown Omaha Kohl's 50th and Dodge

Millard Kohl's 127th and Q Street

In response to the COVID-19 pandemic, Kohl's Rx now offers a series of antiviral tinctures that were formulated by medical doctors and scientists. The holistic tinctures are used to treat symptoms that arise from a viral infection and boost immunity to prevent illness. These tinctures are formulated with a number of whole-plant extracts made from herbs that have been carefully sourced and that were chosen based on an in-depth review of the medical and scientific literature for their antiviral properties, including activity against COVID-19.
